

# Praise Team Report

## Introduction:

The Praise Team is currently facing several challenges that are impacting its effectiveness and growth. This report outlines the team's status, highlighting areas of concern and proposed solutions.

## Key Areas of Focus:

### 1. Ministry Activity:

- The Praise Team is experiencing a period of inactivity, which has resulted in a need for new members to revitalize the group.
- We are seeking support in identifying and nurturing potential members to join the team.

### 2. Leadership Stability:

- The leadership structure lacks stability, characterized by inconsistent communication and uncoordinated actions.
- This instability has hindered the team's ability to function cohesively and make progress.

### 3. Progress:

- Unfortunately, the team has not made significant progress in recent times, which is attributed to the aforementioned challenges.

#### 4. Financial Status:

- The team faces financial constraints, largely due to a lack of unity and collaboration among members.
- This has limited our ability to fund initiatives and support our activities effectively.

#### 5. Future Plans:

- Our primary focus is on recruiting new members to enhance our visibility and impact.
- We aim to implement strategies that will attract and retain members, ensuring the team's growth and sustainability.

#### 6. Concerns:

- We have observed that the support from the council is not always consistent with our expectations. For instance, the participation in instrument-related initiatives was below our anticipated levels, especially compared to previous engagements like the Deanery instrument purchase promotion.

#### 7. Appreciation:

- Despite these challenges, we express our sincere gratitude to the council for their support and efforts. We value the contributions made and look forward to continued collaboration.

#### Conclusion:

The Praise Team is committed to overcoming its current challenges and achieving its objectives. With the right support and strategies, we are confident that we can revitalize our ministry, enhance our impact, and serve our community more effectively.

Recommendations:

1. Leadership Development: Provide training and support to strengthen leadership and improve communication within the team.
2. Member Recruitment: Implement targeted recruitment strategies to attract new members and build a stronger team.
3. Council Collaboration: Engage in open dialogue with the council to address concerns and align expectations for mutual support.

By addressing these areas, we believe the Praise Team can make significant strides in fulfilling its mission and contributing to the broader community.
